

## HPC BLUE PU

**A discharge pressure hose made of polyurethane (PU), widely used in compressed air installations and pneumatic systems in oil-laden environments.** Excellent as a workshop hose when used with an air compressor gun. Thanks to its high flexibility, it also performs very well as a hose on a reel, providing excellent ergonomics for the user.

The outer material is resistant to abrasion, UV radiation, ozone, oils, and light water-based chemical solutions.

Inner wall	PU
Outer wall	PU
Reinforcement	Strong textile reinforcement
Work pressure	20 BAR
Burst pressure	60 BAR
Temperature range	-20°C to +60°C

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Bending Radius (mm)	Coil (m)
26500006	6	10	24	50
26500008	8	12	32	50
26500010	10	15	40	50
26500013	13	19	52	50
26500016	16	23	64	50
26500019	19	26	76	50
26500025	25	33	100	50
