

## MULTIFLEX ARCTIS PVC

**Freeze-resistant slurry tanker suction and discharge hose with a rigid PVC spiral.** A special material blend ensures that the hose remains flexible even at very low external temperatures. It is resistant to cracking during bending tests and has strong mechanical properties. Suitable for use in municipal vehicles, tank trucks, and as a pipeline component. The hose is used for transferring fluids such as slurry, dirty water, light water-based chemicals, or fecal matter.

Inner wall	PVC
Outer wall	PVC
Reinforcement	Rigid PVC spiral
Temperature range	-40°C to +50°C

Variant	Inner Diameter (mm)	Work Pressure – BAR	Burst Pressure – BAR	Bending Radius (mm)	Coil (m)
24000076	76	3,5	10,5	200	50
24000052	52	3	9	290	50
