

## BLUE-FOOD D EPDM 110

### Universal food hose made of EPDM rubber, discharge type.

This product is highly recommended for use in medium-pressure washers in food processing facilities, including slaughterhouses and butcher shops, where hoses operate on hose reels. It is very flexible and easy to handle, making it operator-friendly.

The hose is designed to handle high water and liquid temperatures and is resistant to fats, chemicals, and UV radiation. The inner wall of the hose is non-toxic and complies with FDA food safety standards.

It can also serve as a universal rubber hose when food contact certification is required.

Inner wall	EPDM
Outer wall	EPDM
Reinforcement	strong textile reinforcement
Work pressure	10 BAR
Burst pressure	30 BAR
Temperature range	-30°C to +110°C
Norms	FDA

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Weight (kg/m)	Coil (m)
46001321	13	21	0,34	50
46001929	19	29	0,53	50
46002535	25	35	0,72	50
