

BUNKER HP 40 D

A flexible, highly wear-resistant hose for concrete, concrete mortars, plaster, and gypsum. It is commonly used with equipment such as mixokrets, plastering machines, or heavy-duty trailers like Trans Mix for anhydrite screeds.

The hose has an abrasion resistance coefficient of $<65 \text{ mm}^3$ according to DIN ISO 4649, ensuring long and safe operation. It is compatible with all popular connectors, including concrete connectors, plastering connectors, and PERROT connectors.

Inner wall	NR
Outer wall	SBR/NR
Reinforcement	Two textile reinforcements
Work pressure	40 BAR
Burst pressure	120 BAR
Temperature range	-30°C to +80°C
Conductivity	$R < 10^9 \Omega$
Norms	Abrasion resistance coefficient DIN ISO 4649 $<65 \text{ mm}^3$

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Bending Radius (mm)	Coil (m)
