

## FLEX-OIL 5 NBR SD

**Highly flexible rubber hose for the transfer of petroleum-based fluids with up to 50% aromatic content, as well as oils and fuels.** The hose's outer wall is designed for maximum flexibility, making it ideal for use in tight installations where flexibility is essential. Additionally, it offers high-temperature resistance for the transported fluids.

Inner wall	NBR
Outer wall	NBR
Reinforcement	Strong textile reinforcement, steel spiral
Work pressure	5 BAR
Burst pressure	15 BAR
Temperature range	-30°C to +100°C

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Coil (m)
