

MULTI-OIL 10 NBR SD

Rubber hose for oils and fuels, reinforced with a steel spiral and featuring a high flexibility coefficient. It is suitable for applications involving the transfer of hydraulic oils, lubricants, fuels, and other petroleum-based fluids with up to 50% aromatics content. The outer wall is resistant to abrasion and harsh environmental conditions, including very low temperatures.

Inner wall	NBR
Outer wall	NBR
Reinforcement	Strong textile reinforcement, steel spiral
Work pressure	10 BAR
Burst pressure	30 BAR
Temperature range	-40°C to +90°C

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Coil (m)
