

## STRATOS OHM/T D

**Rubber cement silo hose is suitable for delivering highly abrasive materials, such as sand, cement, grain, or feed.**

The hose has an abrasion resistance coefficient following DIN ISO 4649 of  $<55 \text{ mm}^3$ , ensuring long and safe operation. It is compatible with all popular connectors, such as concrete connectors, plastering connectors, and Tankwagon connectors.

Inner wall	NR
Outer wall	NR
Reinforcement	Two textile reinforcements
Work pressure	6 BAR
Burst pressure	18 BAR
Conductivity	$R < 10^6 \Omega$
Temperature range	-40°C to +70°C
Norms	Abrasion resistance coefficient DIN ISO 4649 $<55 \text{ mm}^3$

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Weight (kg/m)	Coil (mb)
1600305	75	93	2,8	30
1600305	80	100	3	30
1600304	90	110	3,68	20
1600308	100	120	4,05	20
1600309	110	130	5	40
