

MULTI-ISO EPDM OHM 15 SD

EPDM rubber industrial hose reinforced with a steel spiral and two textile plies; suction-discharge type.

This is a heavier version of the MULTI-WATER EPDM OHM 10 SD hose, offering greater efficiency in harsher environments. It is suitable for transferring various fluids, including hot water, hot air, light chemicals, glycol, and industrial wastewater.

Typical applications include septic tank vehicles, HVAC chillers, and pipeline components. The hose's outer wall is resistant to abrasion and harsh environmental conditions, including UV radiation and ozone. The hose is conductive, with electrical resistance $R < 10^6 \Omega$ through the wall.

Inner wall	EPDM
Outer wall	Black EPDM
Reinforcement	Two textile reinforcements, steel spiral
Work pressure	15 BAR
Burst pressure	60 BAR
Temperature range	-40°C to +125°C
Norms	ISO 7751

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Vacuum – BAR	Bending Radius (mm)	Weight (kg/m)	Coil (m)
1000691	51	63	1,00	204	1,8	61
1000798	76	90	0,9	304	2,87	61
1000692	102	116	0,9	408	3,9	61
