

CASTOR ISO 7751 OHM EPDM RED

Universal black rubber hose with red stripes (visible 360°). Suitable for hot water, coolant, and compressed air. Commonly used for various substances in plastic processing, industrial installations, and workshops.

The hose is torsion-resistant and maintains full flow. It is a highly durable product with an outer layer resistant to abrasion.

Suitable for transporting industrial water, water, glycol, light water-based chemicals, and compressed air.

The hose is conductive, i.e., $R < 10^6 \Omega$ through the wall.

Inner wall	EPDM
Outer wall	EPDM
Reinforcement	Two textile reinforcements
Work pressure	20 BAR
Burst pressure	80 BAR
Temperature range	-40°C to +100°C
Norms	ISO 7751

Variant	Inner Diameter (mm)	Outer Diameter (mm)	Weight (kg/m)	Coil (m)
1001290	10	17	0,23	40
1001291	13	20	0,29	40
1001293	19	31	0,73	40
1001294	25	36	0,87	40
